Agenda

To consider and approve the proposed Initial Public Offering of Equity Shares of the Company on the SME platform of the National Stock Exchange of India Limited ("NSE Emerge"), comprising a Fresh Issue and an Offer for Sale, and matters incidental and ancillary thereto, including appointment of intermediaries, approval of the objects of the issue, and authorisations for filings, due diligence and execution of documents.

Background and Purpose

The Chairman informed the Board that the Company has, over the past several years, established itself as a provider of cloud-based, AI-enabled regulatory compliance software ("RegTech") for SME issuers, merchant bankers and capital markets compliance teams, and that the management believes the Company has reached a stage of scale, financial performance and governance readiness appropriate for accessing the public capital markets.

The Chairman further informed the Board that, in order to fund the Company's continued growth — including investment in product research and development and AI infrastructure, expansion of sales and marketing efforts, strengthening of cloud infrastructure and security certifications, and general corporate purposes — and to provide a measure of liquidity to certain existing shareholders, the management has proposed that the Company undertake an Initial Public Offering ("IPO" or the "Issue") comprising a fresh issue of Equity Shares by the Company ("Fresh Issue") together with an offer for sale of Equity Shares by an existing shareholder ("Offer for Sale" or "OFS").

The Board was apprised of the Company's existing issued, subscribed and paid-up equity share capital, being ₹4,12,00,000 divided into 41,20,000 Equity Shares of face value ₹10 each, following conversion of all outstanding Series A Compulsorily Convertible Preference Shares into Equity Shares with effect from March 2026.
